HMF Knuckle Boom Loader 535-K

HMF loader Series 535-K in the 5 tm range

- The HMF 535-K is a loader with a hydraulic reach and lifting capacity second to none within this category.
- Equipped with manual extensions, the total reach is 11.1 metres with a lifting capacity of 270 kg.
- A simple and strong design with low tare weight, requiring minimum space on the chassis.
- Oil regeneration system in all extension cylinders, providing high working speeds on the movements of the jib extension system.
- A flexible lifting tool for hook application with the option of extra valves for rotator and clamshell bucket.
- Ideal for handling of building materials on trucks with a gross vehicle weight from 3 tonnes and over.
- Excellent close-in lifting capacities.
- Available as standard with HMF's totally integrated user-friendly RCL Safety System, which only intervenes when absolutely necessary.
- The loader series is available with the following options: radio remote control, winch, transport alarm and temperature monitoring.
